

# Lower Intermediate - 4<sup>th</sup> Grade

## 2021 Summer Reading Assignment

Dear Parents & Future 4<sup>th</sup> grade students,

Summer reading is an integral part in education. Therefore, each student is required to read **two** books during the summer. One book must be read by every student and the other book can be chosen from the list below.

*Wonder* by R.J. Palacio must be read by each student. A book report must be written on this book and turned into the Language Arts class at the start of the school year.

Each student will also read one book below and complete a book project. The book project could be:

- A book jacket, complete with story description and illustrations
- Mural or Timeline that shows the key events in the story

Book choices for the book project:

- *The One and Only Ivan* by Katherine Applegate
- *Tales of a Fourth Grade Nothing* by Judy Blume
- *James and the Giant Peach* by Roald Dahl
- *Matilda* by Roald Dahl
- *Holes* by Louis Sachar
- *Bridge to Terabithia* by Katherine Paterson
- *The Lemonade War* by Jacqueline Davies
- *The Cricket in Times Square* by George Selden
- *No Talking* by Andrew Clements
- *Wish* by Barbara O'Connor
- *One Crazy Summer* by Rita Williams-Garcia

I am looking forward to seeing all of these projects at the start of the school year. I hope you have a wonderful summer and I can't wait to see you in September!

-Mrs. Stedeford

# Lower Intermediate - 4<sup>th</sup> Grade 2021 Summer Math Assignment

Dear Parents & Future 4<sup>th</sup> grade students,

To better prepare your rising fourth graders for the 2020 school year, students are asked to complete a summer math project. Attached you will find activity pages for students to work on over summer vacation (this will be their project). At times, a separate paper may be needed to solve some problems. Please attach any work that was completed on a separate piece of paper to the activity pages.

These math activities will help reinforce the skills students have learned in third grade. It is also **VERY** important for students to practice their multiplication facts daily. There are great apps, games, etc. to practice multiplication facts. Even simple flashcards are an excellent idea.

I hope everyone enjoys their summer vacation and I am very much looking forward to seeing everyone again when school starts!

-Mrs. Stedeford
