

For Students going into Third Grade:

To help strengthen and maintain the skills we've learned throughout the year and to feel confident and prepared for the upcoming school year, I recommend completing the following workbook during the summer months. The book is organized by color into the three summer months. It reviews all subject areas and takes just 15 minutes a day. There are goals, stickers, and pre-made flashcards to use with the workbook. Attached is a scanned copy of the workbook's front cover. It can be purchased on Amazon. Thank you for your time, help, and cooperation this summer.

Ms. Hanlon
Third Grade Teacher
